

Coronavirus Outbreak

Updated: February 24, 2020

An additional 18 people in the United States have tested positive for the coronavirus as of Monday, February 24th. US stocks have plummeted following news about the spread of the coronavirus outside China to major economies including South Korea and Italy. – Via CNN – 2-24-20

Centers for Disease Control and Prevention (CDC)

The Centers for Disease Control and Prevention (CDC) is closely monitoring developments around a novel (new) coronavirus first identified in Wuhan, Hubei Province, China. To learn about the coronavirus, how they spread, symptoms, diagnosis, treatment, and prevention visit [the CDC website](#) for more information.

- To learn about guidance for travelers, please visit the CDC [Guidance for Travelers](#) section for more information.
- For travelers from China arriving in the US, please visit the [CDC recommendations](#) page.
- For warnings and recommendations issued by the CDC on reducing the risk of contracting coronavirus, visit the [Traveler View](#) page.
- For what to do if you are sick, please access the [CDC Coronavirus Guide](#).
- For the myth buster page regarding the false information circulating about the virus, visit the [myth buster section](#).

World Health Organization (WHO)

WHO works worldwide to promote health and helps prevent emergencies by identifying risks and developing tools needed during outbreaks. WHO published a range of interim guidance for all countries on how they can prepare for the coronavirus, including how to monitor for sick people, test samples, treat patients, control infection in health centers, maintain the right supplies, and communicate with the public about this new virus. To learn more about the coronavirus and for updates, visit [the WHO website](#) for more information.
