### 203.1 PURPOSE AND SCOPE

The purpose of this policy is to provide guidelines for the proper use of department electronic mail (email) and information technology resources, Internet access through the County of Mendocino, including computers, electronic devices, hardware, software and systems. Email is a communication tool available to employees to enhance efficiency in the performance of job duties and is to be used in accordance with generally accepted business practices and current law (e.g., California Public Records Act). Messages transmitted over the email system must only be those that involve official business activities or contain information essential to employees for the accomplishment of business-related tasks and/or communication directly related to the business, administration, or practices of the Department.

See attachment: [County of Mendocino Computer Usage Policy.pdf](#)

### 203.2 EMAIL RIGHT OF PRIVACY

The Department reserves the right to access, audit or disclose, for any lawful reason, any message including any attachment that is transmitted over its email system or that is stored on any department system.

The email system is not a confidential system since all communications transmitted on, to or from the system are the property of the Department. Therefore, the email system is not appropriate for confidential communications. If a communication must be private, an alternative method to communicate the message should be used instead of email. Employees using the Department's email system shall have no expectation of privacy concerning communications utilizing the system.

Employees should not use personal accounts to exchange email or other information that is related to the official business of the Department.

## **MENDOCINO COUNTY INTERNET, E-MAIL, AND COMPUTER USAGE POLICY**

### **Policy Statement**

The use of County of Mendocino automation systems, including computers, fax machines and all forms of Internet/Intranet access is for County business and for authorized purposes only. Brief and occasional personal use of the electronic mail system or the Internet is acceptable as long as it is not excessive or inappropriate, occurs during personal time (lunch or other breaks) and does not result in expense to the County.

Use is defined as "excessive" if it interferes with normal job functions, responsiveness, or the ability to perform daily job activities. Electronic communication should not be used to solicit or sell products or services that are unrelated to the County's business; distract, intimidate, or harass coworkers or third parties; or disrupt the workplace.

Use of County computers, networks, email and Internet access is a privilege granted by management, and may be revoked at any time for inappropriate conduct carried out on such systems, including, but not limited to:

- Countywide email messages are reserved for officially approved Mendocino County publications. Contact the IS Helpdesk at x4667 to arrange for distribution of global email messages.
- Sending chain letters or participating in any way in the creation or transmission of unsolicited commercial e-mail ("spam") that is unrelated to legitimate County purposes
- Engaging in private or personal business activities, including excessive use of instant messaging and chat rooms. Maintaining, organizing, or participating in non-work-related Web logs ("blogs"), Web journals, "chat rooms", or private/personal/instant messaging.
- Misrepresenting oneself or the County
- Violating the laws and regulations of the United States in any way while using County equipment or network
- Deliberately propagating any virus, worm, Trojan horse, trap-door program code or other code or file designed to disrupt, disable, impair, or otherwise harm either the County's networks or systems or those of any other individual or entity
- Using abusive, profane, threatening, racist, sexist or otherwise objectionable language in either public or private messages

- Sending, receiving, or accessing pornographic materials
- Causing congestion, disruption, disablement, alteration, or impairment of County networks or systems.
- Failing to log off any secure, controlled-access computer or other form of electronic data system to which you are assigned, if you leave such computer or system unattended.
- Excessive use of recreational games.
- Defeating or attempting to defeat security restrictions on county systems and applications.

Using County automation systems to access, create, view, transmit or receive racist, sexist, threatening or otherwise objectionable or illegal material is strictly prohibited. "Material" is defined as any visual, textual, or auditory entity. Such material violates the County anti-harassment policies and is subject to disciplinary action. The County's electronic mail system, Internet access, and computer systems must not be used to violate the laws and regulations of the United States. Use of County resources for illegal activity can lead to disciplinary action, up to and including dismissal and criminal prosecution. The County will comply with reasonable requests from law enforcement and regulatory agencies for logs, diaries, archives or files on individual Internet activities, e-mail use and/or computer use.

## **Security**

If you violate these policies, you could be subject to disciplinary action, up to and including dismissal.

- Employees shall not give their passwords out to any other individual.
- Password length is a minimum of 6-characters with at least one special character such as a number or a symbol.
- Computers should be shut down at night unless there is a reason to keep the computer on. In such case there should be a password protected screen saver activated.

## **Ownership and Access of Electronic Mail, Internet Access, and Computer Files**

The County owns the rights to all data and files in any computer, network, or other information system used in the County. The County also reserves the right to monitor electronic mail messages (including personal/private/instant messaging systems) and their content, as well as any and all use of the Internet and of computer equipment used to create, view, or access e-mail and Internet content. Employees must be aware that the electronic mail messages sent and received using County equipment are not private and are subject to viewing, downloading, inspection, release and archiving by County officials at all times. The County has the right to inspect any and all files stored in private areas of the network or on individual computers or storage media in order to assure compliance with policy and any state and/or federal laws. No employee may access another employee's computer, computer files, or electronic mail messages without prior authorization from either the employee or an appropriate County official.

The County has licensed the use of certain commercial software application programs for business purposes. Third parties retain the ownership and distribution rights to such software. No employee may create, use, or distribute copies of such software that are not in compliance with the license agreements for the software. Violation of this policy can lead to disciplinary action, up to and including dismissal.

## **Confidentiality of Electronic Mail**

As noted above, electronic mail is subject at all times to monitoring, and the release of specific information is subject to applicable state and federal laws and County rules, policies and procedures on confidentiality. Existing rules, policies, and procedures governing the sharing of confidential information also apply to the sharing of information via commercial software. Since there is the possibility that any message could be shared with or without your permission or knowledge, the best rule to follow in the use of electronic mail for non-work-related information is to decide if you would post the information on the office bulletin board with your signature.

It is a violation of County policy for any employee, including system administrators and supervisors, to access electronic mail and computer systems files to satisfy curiosity about the affairs of others. Employees found to have engaged in such activities will be subject to disciplinary action.

## **Electronic Mail Tampering**

Electronic mail messages received should not be altered without the sender's permission; nor should electronic mail be altered and forwarded to another user and/or unauthorized attachments be placed on another's electronic mail message.

## **Policy Statement for Internet/Intranet Browser(s)**

The Internet is to be used to further the County's mission, to provide effective service of the highest quality to the County's customers and staff, and to support other direct job-related purposes. Supervisors should work with employees to determine the appropriateness of using the Internet for professional activities and career development. The various modes of Internet/Intranet access are County resources and are provided as business tools to employees who may use them for research, professional development, and work-related communications. Limited personal use of Internet resources is a special exception to the general prohibition against the personal use of computer equipment and software.

Employees are individually liable for any and all damages incurred as a result of violating County security policy, copyright, and licensing agreements.

All County policies and procedures apply to employees' conduct on the Internet, especially, but not exclusively, relating to: intellectual property, confidentiality, County information dissemination, standards of conduct, misuse of County resources, anti-harassment and information and data security.

## **Personal Electronic Equipment**

Employees should not bring personal computers to the workplace or connect them to County Network unless expressly permitted to do so by the County. Any employee bringing a personal computing device onto County premises thereby gives permission to the County to inspect the personal computer at any time with personnel of the County's choosing and to analyze any files, other data, or data storage media that may be within or connectable to the personal computer in question. Employees who do not wish such inspections to be done on their personal computers should not bring such items to work at all.

Violation of this policy, or failure to permit an inspection of any device covered by this policy, shall result in disciplinary action, up to and possibly including immediate termination of employment. In addition, the

employee may face both civil and criminal liability from the County or from individuals whose rights are harmed by the violation.

**I understand this policy and understand that non-compliance may lead to disciplinary action.**

## Staffing Levels

### **205.1 PURPOSE AND SCOPE**

The purpose of this policy is to ensure that proper supervision is available for all shifts. While balance is desirable, the paramount concern is the need to meet operational requirements of the Department.

### **205.2 MINIMUM STAFFING LEVELS**

Minimum staffing levels should result in the scheduling of at least one regular supervisor or officer in charge (OIC) on duty whenever possible.

#### **205.2.1 SUPERVISION DEPLOYMENTS**

### **208.8 TRAINING COMMITTEE**

The Training Manager shall establish a Training Committee, which will serve to assist with identifying training needs for the Department.

The Training Committee shall be comprised of at least three members, with the senior ranking member of the committee acting as the chairperson. Members should be selected based on their abilities at post-incident evaluation and at assessing related training needs. The Training Manager may remove or replace members of the committee at his/her discretion.

The Training Committee should review certain incidents to determine whether training would likely improve future outcomes or reduce or prevent the recurrence of the undesirable issues related to the incident. Specific incidents the Training Committee should review include, but are not limited to:

The recommendation should not identify specific facts of any incidents, such as identities of employees involved or the date, time and location of the incident, but should focus on the type of training being recommended.

The Training Manager will consider the recommendations of the committee and determine what training should be addressed, taking into consideration the mission of the Department and available resources.

Generally, one training bulletin is available for each day of the month. However, the number of DTBs may be adjusted by the Training Manager.

Personnel assigned to participate in DTBs should only use the password and login name assigned to them by the Training Manager. Personnel should not share their password with others and should frequently change their password to protect the security of the system. After each session, employees should log off the system to prevent unauthorized access. The content of the DTBs is copyrighted material and shall not be shared with others outside of the Department.

Employees who are assigned to participate in the DTB program should complete each DTB at the beginning of their shift or as otherwise directed by their supervisor. Employees should not allow uncompleted DTBs to build up over time. Personnel may be required to complete DTBs missed during extended absences (e.g., vacation, medical leave) upon returning to duty. Although the DTB system can be accessed from any Internet active computer, employees shall only take DTBs as part of their on-duty assignment unless directed otherwise by a supervisor.

Supervisors will be responsible for monitoring the progress of personnel under their command to ensure compliance with this policy.
